

Tree Services Sydney | Tree Removal | Arborist

What most people are not aware of is that our industry is not licensed. Therefore anyone can call themselves an arborist. You may have seen or heard of news articles such as on A Current Affair or as per this Daily Telegraph articles tree scammers targeting unaware and elderly people. It is advisable that you carefully select the firm before engaging them to do your work. It may be tempting to settle for the cheapest quote but this can lead to a lot of unwanted headaches. We want to ensure that you don't become one of these statistics.

About us

Our main aim is to achieve customer satisfaction in all our tree services.

We deliver instant and quick solutions for the trees in your property which have unevenly grown branches. We follow all the rules and regulations that govern for cutting trees.

Tree Service Sydney has been operating in Sydney for over 10 years. We provide tree removal, tree cutting, tree pruning and other tree service all over Sydney

Tree Service Sydney Company is fully insured and our qualified arborists have extensive experience in tree removal, lopping and pruning. Our services also include stump grinding we are specialised in all residential and commercial work.

We have a good reputation in the industry and we always focus on quality services at affordable prices. Our aim is to achieve customer satisfaction with our professionalism and quality materials provided at the best possible price.

All our workers are skilled and trained professionals who have worked in the tree industry for number of years. We use all modern and specialized equipment for all our work.

Our main industry body "Arboriculture Australia" is trying to push for a licence in our industry. This will not only help to make it a safer industry and raise the quality of the work. It will also benefit the consumer in giving them assurance that companies need to have minimum requirements to be able to trade.

Safety

Tree Services Sydney Tree Services and its Management team are committed to providing customer satisfaction by implementing and maintaining an Integrated Management Plan (IMP). This IMP represents a detailed outline of the PTS management system and explains "how we do things" to achieve these outcomes.

Our strategically developed documents, processes and procedures provide the mechanisms to achieve quality, safety and sound environmental practices in our services and personnel, whilst our commitment to continually improve these mechanisms, is how we can strive to achieve operational excellence and ultimate customer satisfaction. PTS is committed to:

- Establishing a standardised system of managing our IMP across all of the business.
- Allocate and communicate responsibility and accountability to all levels of employees.
- Establish a system of managing our IMP that can be monitored and continuously improved.
- Maintain compliance to all three (3) standards.
